**Subject:** RE: ATTORNEY CLIENT PRIVILEGE Oregon 303(d) list review and ocean acidification

Good point, Jamie. It would be good if we can see a draft of the briefing paper sooner rather than later, if you are planning to touch base with Jill or Lori. I do recall that Julie was:

**Attorney Client / Deliberative Process / Ex. 5**

**Attorney Client / Deliberative Process / Ex. 5**

Let us know what you find out, and might be good to have a check-in call with the Region.

FYI – CBD did send a comment letter on the NJ list, and Sarah and I had a discussion with Region 2 re how best to perhaps do some look at the articles and group into those that might be potentially relevant and which not, e.g., global studies, studies in other states, etc. (using Julie's approach).

Thanks!  
Ruth

Hmmm...sort of unusual for them to let us know *after* the briefing given all the HQ support to the Region on this issue in previous listing cycles.

**Attorney Client / Deliberative Process / Ex. 5**

**Attorney Client / Deliberative Process / Ex. 5**

I'll see if I can get more info from the Region, but let me know if you folks have other thoughts.

Thanks,  
Jamie

Hello, Steve. Welcome back ☺ Just want to give you a heads up that OA may be **Attorney Client / Deliberative Process / Ex. 5**

**Attorney Client / Deliberative Process / Ex. 5** There is a NOAA study from 2014 that found that a significant percentage of pteropods in the ocean off of California, Oregon, and Washington are not forming their shells due to high aragonite saturation levels. **Attorney Client / Deliberative Process / Ex. 5**

**Attorney Client / Deliberative Process / Ex. 5**

**Attorney Client / Deliberative Process / Ex. 5**

**Attorney Client / Deliberative Process / Ex. 5** I will let you know what comes out of the briefing.

I'll send you the briefing paper if you like when its done. If there is someone else in OGC that I should be coordinating with, let me know. Ciao.
